

DECISION RECORD

NFRS Decision Record Number: 60

This document records a decision taken by the Police, Fire and Crime Commissioner, together with details of the advice he received prior to taking the decision.

Decision taken

The PFCC has taken the decision to approve the business case to establish a joint Digital structure which is sufficiently resourced to provide a fit for purpose IT support service as well as a Digital Implementation team to deliver technical projects and technical workstreams of large change programmes. The new team will be a professional digital team, following industry standard ways of working, and delivering benefits from technology and a digitally enabled workforce to Northamptonshire's Police and Fire services. It also proposes that the implementation of the structure processes and tooling, along with the technology to share systems, are run as a separate programme of work, and therefore requests additional one-off funding to do this. The total cost of the recommended option is £5,318,285.

Details of advice taken

Professional financial and legal advice has been sought to ensure the decision best supports business need and represents value for money.

A handwritten signature in blue ink, appearing to read 'Stephen Mold'.
